

7/22/2020

Dear Ms. Parker Bodine,

The Association of American Pesticide Control Officials (AAPCO) appreciates your recent letter addressed to "Partner Agencies". Your acknowledgement of these unprecedented times and willingness to work with AAPCO's member states is greatly appreciated.

We certainly agree that technology can assist in performing off site inspections, resulting in meaningful and effective compliance monitoring. States are working diligently to implement new and novel ways to conduct compliance inspections.

Again, AAPCO and our member states appreciate your efforts,

Leo A. Reed

President, AAPCO
