4	As of 11/3/2023, Iowa reports the following counts of PHNX growth regulator herbicide incidents: 92 Full Misuse Investigations, 1 Target records inspections and 4 Unconfirmed Reports (Informational Reports, no follow-up requested) for a total of 98 incidents. A subgroup of 16 PHNX growth regulator herbicide full misuse investigations have been confirmed to relate to over-the-top (OTT) dicamba applications of products approved for use in tolerant soybeans. This means that we have collected labels, application records, and applicator affidavits confirming that an OTT application of dicamba in soybeans took place.	11/3/2023 5:34 PM
