AAPCO

- **Provide a national forum to identify pesticide regulatory issues, solicit input, and provide solutions through policies, position papers, and lobbying activities.**
- **When it is feasible, encourage consistency and uniformity among the states in the implementation of their pesticide regulatory programs.**
- **Build partnerships and promote effective communication between AAPCO and the:**
 - U.S. Congress*
 - U.S. Environmental Protection Agency (EPA)*
 - National Association of State Departments of Agriculture (NASDA)*
 - American Association of Pesticide Safety Educators (AAPSE)*
 - Association of Structural Pest Control Regulatory Officials (ASPCRO)*
 - Certification and Training Assessment Group (CTAG)*
 - Tribal Pesticide Program Council (TPPC)*
 - Other Federal, State, and Local Governments, and*
 - Other organizations and stakeholders.*
- **Identify priorities and advocates for adequate EPA program funding of states. EPA funds state pesticide regulatory programs primarily through cooperative agreements that help implement federal pesticide laws, priorities, and programs.**

The **State FIFRA Issues, Research, and Evaluation Group (SFIREG)** is a Standing Committee of AAPCO that serves as the primary mechanism to address national pesticide concerns. States and Territories are represented by 10 Regional Representatives who are responsible for bringing issues to SFIREG.

SFIREG Joint-Working Committees

- Provide technical support to AAPCO members, the U.S. Congress, EPA, NASDA, AAPSE, TPPC, other Federal, State, and local governments, and other organizations and stakeholders on pesticide regulatory programs.
- Support Federal and State pesticide policies and programs that protect human health and the environment, while acknowledging the important benefits of pesticide use including consumer protection and the continued ability to secure high quality food, feed and fiber.
- Disseminate timely and useful information on relevant state and national pesticide regulatory activities and solicit input and participation from a wide range of lead agencies for pesticide regulation.

SFIREG Joint-Working Committees

Full SFIREG, which refers to the 10 State Regional Representatives and ex-officio partner members, acts as the States' and Territories' voice in determining which issues have widespread significance and how best to resolve the issues, including seeking EPA's assistance.

Full SFIREG is supported by three Working Committees:

- Pesticide Operations and Management (POM)**
- Environmental Quality Issues (EQI)**
- Endangered Species Implementation (ESI).**
